CALL FOR PROPOSALS

Social Sciences, Humanities, & Arts Research Experience (SHARE) Awards

The Social Sciences, Humanities, and Arts Research Experience (SHARE) Award is a research apprenticeship program designed especially for students in the earlier stages of their college careers. A SHARE project serves as an introduction to research in a chosen field and helps students develop the skills they will need for further research projects. SHARE awardees will spend 10 hours per week during the Spring 2016 semester working on a project under faculty supervision.

SHARE provides faculty members with eager assistants for their projects, allowing faculty members to focus on their own research interests while introducing future researchers to the realities of research in their discipline. Examples of SHARE apprentice duties include, but are not limited to, performing library research, assisting with experiments, coding and/or analyzing data, and conducting and/or transcribing interviews.

Funding
During the spring semester, student apprentices will receive a $1,500 stipend (paid out as an hourly wage) and faculty mentors will receive a $500 professional development stipend. The OUR gratefully acknowledges the support of the UConn Humanities Institute for the SHARE Awards program; UCHI funds up to two student awards for SHARE projects in the humanities.

SHARE Teams
SHARE teams consist of a faculty mentor and a student apprentice who apply jointly for the program. Faculty members are encouraged to recruit student apprentices to work with them on a potential SHARE project, and students interested in the program may also approach faculty members to express their interest in a potential project. Please note that students must be majoring or pre-majoring in the social sciences, humanities, or arts to be eligible for this program. Freshmen, sophomores, and juniors are eligible, with preference given in the application review process for SHARE teams that include freshmen and sophomores.

Deadline: Applications must be submitted by 4:00 pm on October 26, 2015

Applications and program details are available online at: http://ugradresearch.uconn.edu/share/

EPSY PTR Guidelines Committee
Draft of new guidelines for PTR

This document addresses proposed guidelines for the EPSY department for each of the key areas considered in decisions around promotion, tenure, and reappointment, namely scholarship, teaching, and service. The scholarship area is divided into two parts: scholarship and grants. The teaching area is also divided into two parts: teaching and advising. The document reflects an integration of previous PTR guideline documents, current documents from the university and the Neag School of Education regarding PTR, and recent discussions and decisions among the faculty regarding expectations (e.g., decisions informing the merit procedures, evidence from new student evaluation system).

In each of the areas, the document provides the following, with attention to promotion both to associate and to full professor:

- Description of an overall concept of satisfactory performance
- Proposed guidelines detailing sources of evidence for satisfactory performance
- List of sources of supplementary evidence, representing details that may inform PTR recommendations beyond the standard expectations.
Scholarship
